Security Camera Gateway

Improve security and convenience at your property with the ButterflyMX Security Camera Gateway.

Security Camera Gateway

Security Cameras

ButterflyMX OS

Compatible with any IP security camera running ONVIF 20.06 firmware or later, the Gateway brings live video for up to 10 cameras into the ButterflyMX OS.

Designed to unify access control and security cameras into single platform, the Camera Gateway enables any property to purchase ButterflyMX Dome or Bullet Security Cameras or connect their existing security cameras to see video alongside access events, providing enhanced security and convenience at your property.

SEAMLESS CONNECTIVITY:

Easily connect up to 10 Security Cameras with ButterflyMX's suite of property-wide access control products, eliminating the need to manage security video and access control in multiple systems.

EASY INSTALLATION:

Connects to your network switch using a single Ethernet connection and is powered via USB-C.

CLOUD VIDEO STORAGE:

All video is stored securely in the cloud for up to 90 days, providing easy access to important footage from anywhere in the world.

FILTERING:

Video is automatically associated with property access events, allowing system administrators to quickly find the video footage that matters.

HARDWARE SPECIFICATIONS

- **Compact design:** 3.5" (90 mm) L x 2.6" (66 mm) W x 1.6" (41 mm) H, weighing only 0.5 lb (0.23 kg) to easily fit into any secure, weatherproof location.

- **High performance:** Powered by a Broadcom 2.4GHz quad-core 64-bit Arm Cortex-A76 processor, offering fast and powerful data processing.

- **Local storage:** Supports up to 1TB via SSD of local storage.

- **Reliable connectivity:** Connects via Ethernet (10/100/1000) to ensure stable, high-speed network performance.

- **Power efficiency:** 5V/5A DC power via USB-C with a max power consumption of only 7 watts, ensuring energy-efficient performance.

- **Optimal operating range:** Designed to perform best in ambient environments between 50°F to 85°F.

- **Bandwidth requirements:** A minimum of 600 kbps of Internet bandwidth is required.

- **NDAA compliant:** The Security Camera Gateway meets all necessary regulations, including NDAA compliance, ensuring it is suitable for both government and commercial applications.
