

ButterflyMX: Smart elevator controls

Secure, convenient, and affordable elevator controls from a smartphone.

Easy as 1-2-3

1. A visitor, guest, or delivery person calls a tenant/resident via our smart intercom.

2. The tenant/resident grants access to the property via our mobile app, which also temporarily unlocks the elevator.

3. The visitor, guest, or delivery person enters the elevator and can select the floor of the resident/guest.

ButterflyMX

Virtual keys

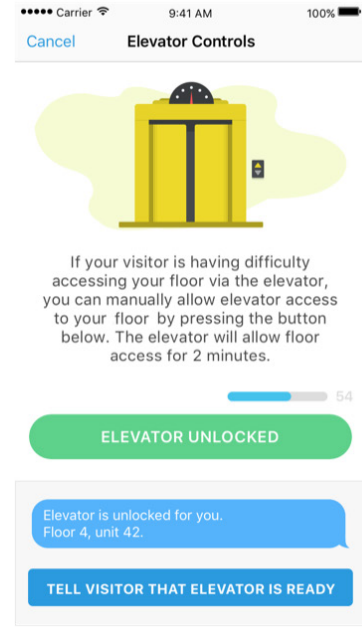

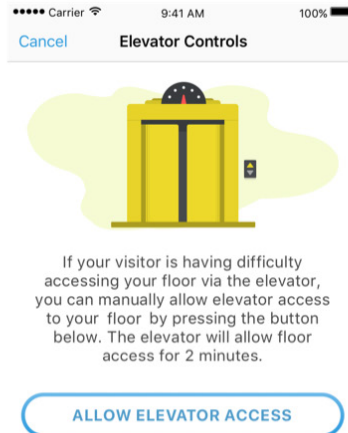

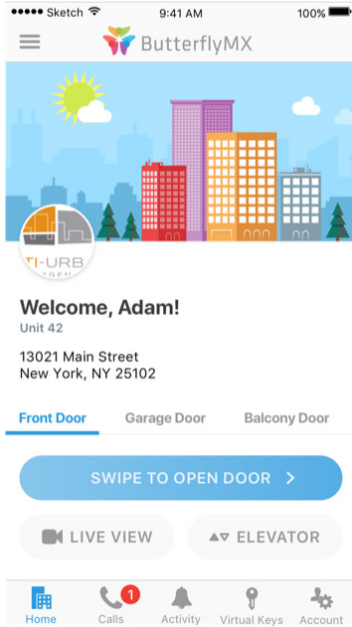

When Virtual Keys are used at the intercom, key-fobbed elevators will automatically be unlocked for a set period of time, allowing access to the tenant/resident's floor.

Notify guests

Residents/tenants can send a text message to visitors/guests notifying them that the elevator has been unlocked and they can now access it to get to their floor.

More about ButterflyMX

ButterflyMX, maker of the smart intercom, has developed the most secure and convenient building entry platform that tethers cloud-based software to intuitive touchscreen hardware. Our mission is to connect the wide variety of software-enabled services to tenants inside a building. To date, ButterflyMX has facilitated over seven million door release transactions and is installed in more than 2,500 properties around the world. ButterflyMX has been adopted in buildings developed, owned, and managed by the following companies: Trammell Crow Residential, Bozzuto, AvalonBay Communities, Douglaston Development, Roseland Residential Trust, Equity Residential, Silverstein Properties, Skanska, Rechler Equity Partners, Jamestown, Laramar, Lennar, PeakCampus, CA Student Living, American Campus Communities, Haven Campus Communities and Mill Creek Residential. The company is headquartered in New York City. For more information, visit butterflymx.com.
