# ButterflyMX

Your complete property access solution

ButterflyMX products make property access simple by empowering building owners, staff, residents, and visitors to open doors, gates, garages, and elevators with a smartphone, fob, or PIN code. Join the 10,000+ multifamily, commercial, student housing, and gated communities that trust ButterflyMX to deliver a building-wide property access experience.

Video intercom

A solution for entryway doors, gates, and parking garages.

- Open doors & gates remotely from a smartphone and video chat with visitors.
- No in-unit hardware or building-wide wiring.

Package room

Accept, manage, and secure all deliveries.

- Easy courier access to prevent missed deliveries & package theft.
- Residents can retrieve packages 24/7.

Elevator controls

Manage elevator access to individual floors.

- Unlock key-fobbed elevators from a smartphone.
- Guests can only access the floor of the tenant they're visiting.

Access control system

Keypads and mullion readers for property-wide access.

- Open doors & gates with fobs, smartphones, and PIN codes.
- Adjust access permissions from any smartphone or computer.

Vehicle access

Hands-free access to garages, gates, and other vehicle entry points.

- Replace remotes, fobs, and keys with convenient windshield tags.
- Review time- and date-stamped records of gate & garage entries.

Smart locks

Connect and manage 80+ compatible smart locks.

- Compatible locks include Schlage, Kwikset, August, Yale, and more.
- Unlock doors, gates, and apartment units from one mobile app.
