Key Locker

Smart, simple, and secure building-wide access for self-guided touring & onsite key management.

Key locker is a 34-compartment locker, which enables property owners, managers, and leasing agents to remotely grant and manage physical keys & fobs for self-guided tours, maintenance requests, and service providers such as dog walkers and house cleaners.

HOW IT WORKS:

Install our Key Locker in your lobby, vestibule, or other easily accessible indoor space

Place your keys & fobs into the locker compartments

Assign one-time or recurring access to each locker for your various needs

CAMERA FOR ADDED SECURITY

The key locker includes a built-in camera for enhanced security. Each time a locker is opened , it automatically takes a time-and-date stamped photo and notifies you.

SMART SENSORS

Each compartment has its own locking mechanism to operate independently. An infrared sensor in each locker detects if the key/fob has been returned to the locker.

CLOUD-BASED

Property owners, managers, and leasing agents can easily grant or revoke Key Locker access using the ButterflyMX OS, via their smartphone or computer.

EASY TO INSTALL

Only two wires are required to install Key Locker: power and internet. The entire system fits in an area of H 15" x W 23.7" x D 4.56".
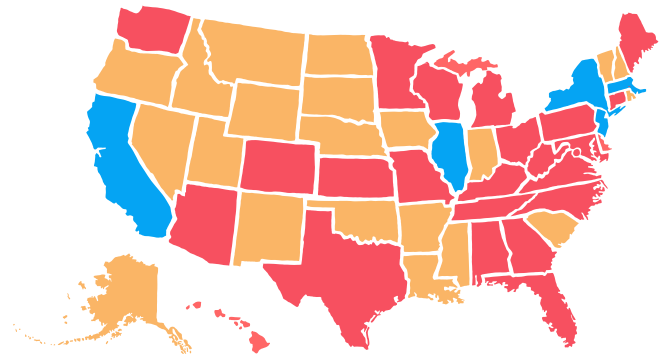

FIND US IN ALL 50 STATES!

We're installed in more than 8,500 properties nationwide including those developed, owned, and managed by:
