

ButterflyMX: Smart access control

Secure, convenient, and affordable access control from a smartphone.

Tenants:

- Open and manage doors from anywhere
- See and talk to visitors/guests with live video
- Issue virtual keys and guest PINs for managed entry
- Control key-fobbed elevators with ease

Property managers:

- Time- and date-stamped photos of all door entries
- Manage tenant permissions from a dedicated admin panel
- Integrate with your PMS for automatic tenant directory updates
- Assign unique delivery PINs to UPS, FedEx, and USPS

Developers & owners:

- Reduce costs by eliminating building wiring and in-unit hardware
- Simple three-wire installation: internet, power, and doorstrike
- Transform your property with a tech-forward amenity

ButterflyMX

No Smartphone? No problem!

Employees without smartphones receive a standard phone call, and they can issue virtual keys and view messages/door release events via their web account.

Virtual keys

Virtual Keys are QR codes that guests, service personnel or temporary employees can scan at a panel for timed access. Regular delivery personnel can be assigned a permanent PIN.

Multiple answering options

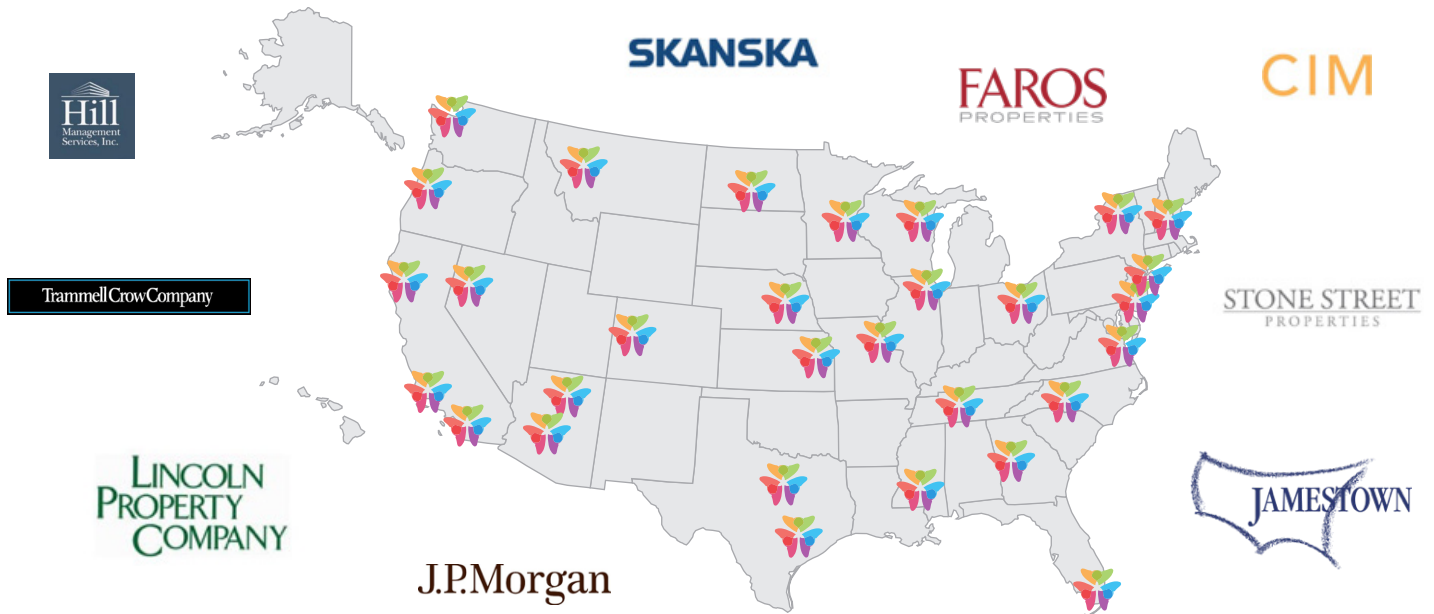

Answer calls at a desk, an office phone or on a mobile device. Each office tenant can customize their answering options from within their account.

Robust customization

Customize the display on the panel interface. Hot buttons can call a centralized management office from multiple buildings. Each tenant can manage their own employees through the management portal.

We're in more than 2,500 buildings nationwide including those developed, owned, and managed by:

More about ButterflyMX

ButterflyMX, has developed the most secure and convenient building entry platform that tethers cloud-based software to intuitive touchscreen hardware. Our mission is to connect the wide variety of software-enabled services to tenants inside a building. To date, ButterflyMX has facilitated over seven million door release transactions and is installed in more than 2,500 properties around the world. ButterflyMX has been adopted in buildings developed, owned, and managed by the following companies: Trammell Crow Residential, Bozzuto, AvalonBay Communities, Douglaston Development, Roseland Residential Trust, Equity Residential, Silverstein Properties, Skanska, Rechler Equity Partners, Jamestown, Laramar, Lennar, PeakCampus, CA Student Living, American Campus Communities, Haven Campus Communities and Mill Creek Residential. The company is headquartered in New York City. For more information, visit butterflymx.com.
