

Front desk station

Focus on delighting your residents, not managing visitors or deliveries.

REDUCE OPERATING COSTS:

- Reduce shifts for less-trafficked hours such as overnight.
- Improve operations by empowering staff to be more efficient with their time.
- Eliminate unnecessary in-unit hardware and wiring; all calls to residents are made to their mobile device.

VISITOR MANAGEMENT:

- Easily manage visitors through software on a desktop computer or tablet.
- Enable couriers to make deliveries without staff involvement.
- Assign unique delivery PINs to UPS, FedEx, and USPS.

AUDIT TRAILS & REPORTING:

- Review all visitor entries and deliveries made for 365 days.
- See and talk to visitors and guests through live video.
- Capture time- and date-stamped photos of all door releases.

NO SMARTPHONE NEEDED

Residents without smartphones receive a standard phone call, and they can still review door releases and issue virtual keys/delivery PINs via their web account.

ISSUE VIRTUAL KEYS

Virtual keys are QR codes that guests or visitors can scan at the intercom for managed property access. They are perfect for house cleaners, dog walkers, and other service providers.

MANAGE PACKAGE DELIVERIES

Designate a small room for packages to allow couriers to drop off deliveries without the involvement of staff. Residents are notified of their package.

UNLOCK ELEVATORS

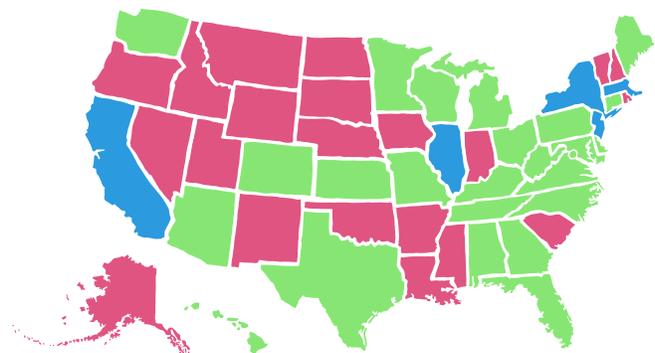

Unlock key-fobbed elevators from both our intercom and our mobile app - creating a seamless experience for staff, guests, couriers.
