ButterflyMX + Yale Bluetooth Smart Locks

Seamless property-wide access,
no WiFi required

With ButterflyMX's integration with Yale Pro 2® Bluetooth smart locks, residents and tenants can unlock every door and gate from the ButterflyMX app, no managed WiFi required.

ONE APP FOR EVERY DOOR
Residents can access their building entrance, amenity spaces, and their individual unit using the ButterflyMX mobile app.

NO WIFI? NO PROBLEM
Ideal for properties that lack building-wide WiFi or where WiFi is unreliable.

MANAGED IN THE BUTTERFLYMX OS
Property managers can manage Yale smart locks directly through the ButterflyMX OS. No additional platforms or hubs required.

VISITOR ACCESS MADE EASY
Residents can send family, friends, and guests Visitor Passes for managed access that can be revoked anytime.

BOOST RESIDENT AND TENANT SATISFACTION

Offer your residents and tenants a modern, convenient way to unlock doors without extra apps, fobs, or keys.

SIMPLIFY OPERATIONS AND REDUCE COSTS

Cut installation and maintenance costs by eliminating the need for WiFi or hubs — all while maintaining powerful access control.

ENHANCE SECURITY AND CONVENIENCE

Yale Pro 2® locks use Bluetooth and PINs for secure, offline access, backed by the trusted reliability of ButterflyMX.

Before connecting, make sure your device has Bluetooth turned on and is near the lock.

Connect to lock

⚠️ To change the PIN for your door, go to Account > My PIN.

MORE ABOUT BUTTERFLYMX

ButterflyMX is your complete property access solution, providing a secure, convenient, and affordable way to manage and grant access on the go. Empower your residents and building staff to open doors, gates, and elevators with a smartphone and ensure they never miss a visitor or delivery. Enjoy easy installation, cut costs by eliminating building wiring and in-unit hardware, and save time by integrating with popular access control and property management systems. Join the 17,000+ multifamily, commercial, gated community, and student housing properties that have made access simple with ButterflyMX.
