dormakaba Integration

Empower residents to manage access throughout your building from a single app, while freeing up valuable time for your property staff.

The ButterflyMX + dormakaba Saffire EVO LZ series integration expands functionality of the ButterflyMX app, so residents can control access to various parts of the building using a single mobile app. This means residents no longer need to toggle between multiple apps and you eliminate the need for rekeying, reducing costs and freeing up valuable time for property staff.

ONE APP FOR EVERY DOOR

Residents can enjoy a completely keyless experience. This integration allows residents to access both the building and their unit directly from the home screen of the ButterflyMX mobile app.
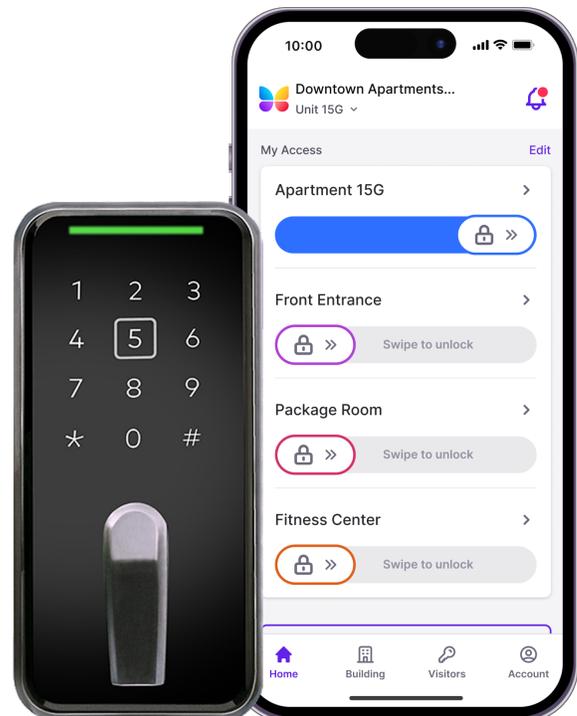

ACCESS MADE EASY

Unlock available with PIN, Swipe-to-Open, Bluetooth, or RFID fobs and keycards.

MANAGED IN THE BUTTERFLYMX OS

Property managers can manage dormakaba smart locks directly through the ButterflyMX OS. No additional platforms or hubs required.
